SKILLS

- **Languages:** Java, JavaScript, C, Python, C++, SQL
- **Technologies:** HTML, CSS, Node.js
- **Databases/Tools:** MySQL, Git, GitHub, Figma, NumPy, Pandas, Power BI
- **Soft Skills:** Problem solving, Team collaboration, Time management, Adaptability

PROJECTS

Bug Hunt Game | [GitHub](#)

April 2026-May 2026

- Developed an interactive browser-based game using HTML, CSS, and JavaScript that challenges users to identify and fix programming bugs through code-based scenarios.
- Implemented dynamic gameplay using JavaScript DOM manipulation, event handling, conditional logic, score tracking, and real-time user feedback.
- Designed an interactive user interface combining programming concepts with game mechanics to create an engaging technical learning experience.
- **Tech Stack:** HTML, CSS, JavaScript

Quiz Game | [GitHub](#)

Jan 2026 - Feb 2026

- Developed a story-driven interactive quiz application using HTML, CSS, and JavaScript with dynamic question flow and user interaction.
- Implemented JavaScript-based scoring, answer validation, question progression, and dynamic UI updates to create a responsive quiz experience.
- Integrated creative storytelling with programming logic to improve user engagement and provide an interactive learning experience.
- **Tech Stack:** HTML, CSS, JavaScript

Personal Portfolio Website | [GitHub](#)

Nov 2025- Jan 2026

- Designed and developed a responsive personal portfolio website to showcase technical projects, certifications, skills, and professional work.
- Implemented structured navigation, responsive layouts, project sections, and interactive elements to provide a clear and user-friendly experience.
- Deployed and maintained the portfolio using GitHub Pages and version-controlled development workflows.
- **Tech Stack:** HTML, CSS, JavaScript, Git, GitHub

CERTIFICATES

- | | |
|--|-----------|
| • DBMS Upgrad | June 2026 |
| • Python Programming Upgrad | June 2026 |
| • Web Scrapping Upgrad | June 2026 |
| • Introduction to HTML Sololearn | June 2026 |
| • Professional Skills Job Simulation Forge | Nov 2025 |

ACHIEVEMENTS

- 50+ programming problems solved across **LeetCode, HackerRank, CodeChef, or other coding platforms.**
- Earned the **Python Gold Badge** on HackerRank, demonstrating proficiency in Python programming and problem-solving.

EDUCATION

Lovely Professional University

Bachelor of Technology - Computer Science and Engineering **CGPA: 8.2**

Phagwara, Punjab
Aug 2025 - Present

Army Public School

Higher Secondary Education **Percentage:91.3%**

Pune, Maharashtra
May 2023 - Mar 2025

Army Public School

Secondary Education **Percentage:96.5%**
